

Kings Beach Family Resource Center First 5 Learning Conversation

November 16, 2005

Strategies

- Staff will work with the FRC board to develop and implement a sustainability plan
- Support families who need services with an integrated service delivery system that includes a family-centered, interagency case management approach
- Provide activities and programs at the KB-FRC for children ages 0-5 and their families
- Use an outcome – based feedback loop that integrates the voice of parents in the KB-FRC program design

Outcomes

- Families with children 0–5 served by the Kings Beach Family Resource Center are raising healthy children
- A sustainability plan (including financial and social capital) will exist for the Kings Beach Family Resource Center

Performance Measures

- Demographics
- Placer Outcomes Screening Form
- Stories and Pictures
- A FRC Board approved sustainability plan

Indicator #6 – Receiving nutritious foods to meet daily need

A 35 year old Hispanic single mother of four children, ages 1 to 13, participates in Project MANA and WIC. She takes any new information and practices it at home with her 4 children. She also passes the information on to other members of the community when she teaches home-ec classes at the FRC.

Supports Indicator #6 – Receiving nutritious foods to meet daily needs

A 31 year old Hispanic mother of four daughters, ranging from 5 months to 7 years old, has improved the nutritional health of herself and her family by learning new ways of cooking. She was encouraged to attend the ESL class where the teacher, a Weight Watchers coach, suggested she make subtle changes in her food choices. She now also participates in Project MANA, and WIC. And leads by example by being physically active, and including her children in her activities.

Indicator #11 – Living in a safe, stable and nurturing environment

A Hispanic family of four, with daughter 8 and son 1, has been challenged by father's workers comp case. Though this has been difficult, especially for him, they are growing as a family. They are actively participating in their church, mom and dad have recently married, and dad has joined the local MIC Program.

~ ~ ~

A 37 year old Hispanic single mother of three children, ages 5 to 12 works hard to provide a safe and stable environment for her family. This family are survivors of domestic violence, and have been on their own for 2 years. Mom is the single provider for her children, and uses resources and options made available to her. Recently her oldest son was in an accident, and she is learning about the legal, insurance, and medical systems. She asks for advocacy that has her children's well being in mind. She's enrolled her children in the Boys & Girls Club, is very involved in their schooling, practices her English, and continues to make decisions based on the health and happiness of her children.

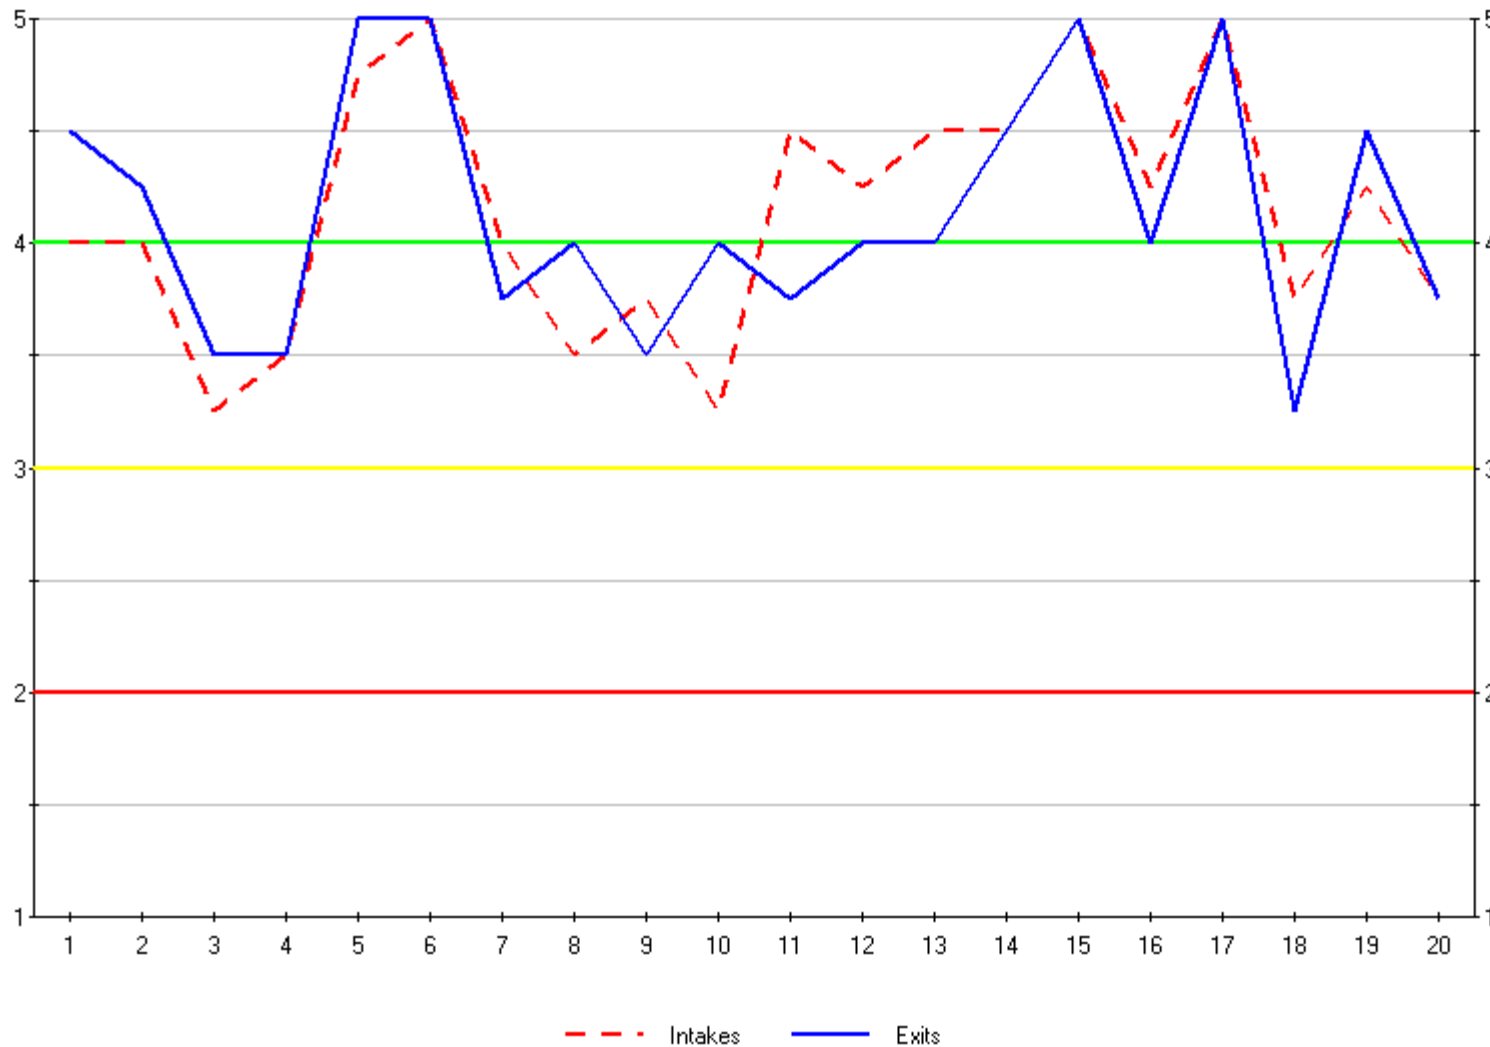

Families with children 0-5 served by the Kings Beach Family Resource Center are raising healthy children

Peri-natal Collaboration with Tahoe Forest Hospital: Comenzando Bien & Special Delivery

- FRC Advocate provides translation and support services once a week
- Training and conversation topics such as:
 - ~Nurturing during pregnancy and beyond
 - ~Physical stress during pregnancy
 - ~Effects of unhealthy behaviors i.e drugs, alcohol, smoking
